

I Won't Forget Loving You

Words and Music: Graeme Connors

I get caught up at times in changing directions
Work my soul to the bone going nowhere
Too carried away to know trash from treasure
And often forgetting what I set out to say

And at turns I'm contrary hard to live with I guess
Like a mule-headed pony hell bent on a rest
Stumbling around mountains I don't need to climb
Takin' the long way most the time
Takin' the long way most the time

I'll be coming and going forever
Searching for something new
But when I'm old and infirm
And I've forgot all I've learned
I won't forget loving you

Instrumental....

And I don't write you letters or call on the phone
Always too busy out here alone
Screaming around corners in back of my mind
Never knowing what I'm likely to find
Never knowing what I'm likely to find

I'll be coming and going forever
Searching for something new
But when I'm old and infirm
And I've forgot all I've learned
I won't forget loving you

When I'm old and infirm
And I've forgot all I've learned
I won't forget loving you
